STUDENT PROFILE

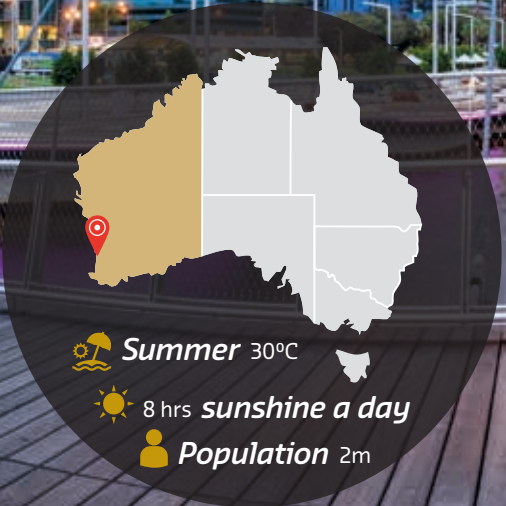

“Curtin was my dream university since I passed my undergraduate degree. From an education fair, I discovered that Curtin is ranked in the top 1% of the world's universities, which quite appealed to me. There, the English Language Bridging Course gave me an opportunity to not only improve my academic skills, but it also taught me how to carry out multiple tasks at a time and handle stressful situations. If you're thinking about career outcomes, Curtin University will put you on the right path.
