

MEET OUR STUDENT

BRUNO PRATS DE OLIVEIRA

The knowledge that I have learned so far is almost unbelievable! The course is intense with different challenges, but we do receive all instructions and teachings from our teachers. Alongside that, I could realise how I was overcoming my weaknesses gradually.

I feel much more prepared to my future university studies.

The most satisfying aspect was that I knew my teachers were highly experienced in the field and that they were giving us the best content to prepare us for our future university challenges.

Different abilities are required to be developed to get until the end of the academic English course, such as critical thinking, academic writing skills, discussion and presentation skills, intelligent and effective reading and so on.

My classes were delivered online, and it was all well organised and with high level of commitment, either from teacher or classmates. Everyone was with the camera opened and the interaction was always happening throughout the lessons.

Thanks to technology we could create a good bond during the 10 weeks of AE course through WhatsApp groups, zoom meetings and group assessments.

I think it is important to emphasize that even though lessons are being delivered online, I honestly could not feel that we were losing quality.

MEET OUR STUDENT

JOÃO VICTOR SALLES

João Victor studied Academic English as a direct entry pathway to Curtin University

I feel a significant sense of progress in my English because I can use many skills developed in this course in many areas of my life.

I feel extra confidence now.

The most enjoyable part of the Academic English course is developing skills beyond language and applicable to many life areas such as job, social relationship and family.

It is a very intense course. In every single class, your teacher will pull you to new challenges and knowledge areas.

My classmates were brilliant and hard workers. Because they are from many countries, I had an incredible opportunity to learn more than many different accents; I had a chance to learn from different cultures and backgrounds.

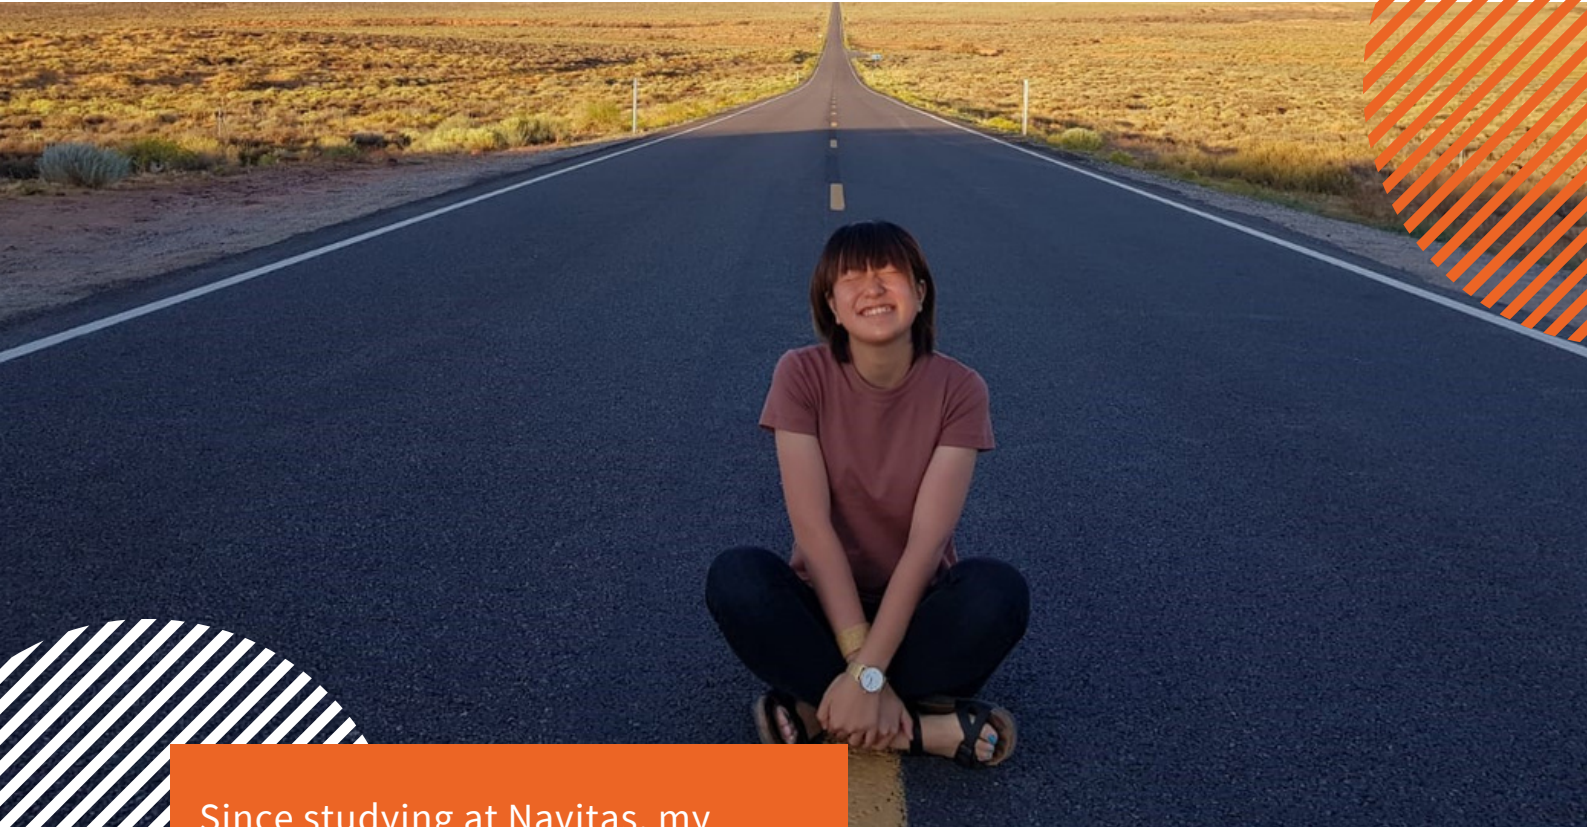

I have learned so far skills like: Critical reading, Argumentative writing, Seminar Presentations, Listening in lectures, Research, evaluative analysis, teamwork and much more. I feel extra confidence now.

I feel a significant sense of progress in my English because I can use many skills developed in this course in many areas of my life. Additionally, many friends have commented about my English evolution.

MEET OUR STUDENT

HARUKA HAYASHI

Haruka studied Academic English 2 and Academic English 3

Since studying at Navitas, my English skills have been improving especially listening and speaking.

The most satisfying aspect of Academic English was doing presentations because it was a good way to organize academic ideas. This also gave me more confidence in speaking.

My skills in grammar and academic vocabulary has improved which has been very useful in essay writing. My classmates are cheerful, considerate, friendly, and humorous.

As I'm not familiar with the IELTS style and British English the AE2 course helped me improve my listening and reading. If you don't know how to write essays and organize structure this course helps you understand what is needed.

When studying the AE3 course, I found the research essay was very helpful to understand structure and knowledge. It expanding my learning and usage of words which will help me in the future.
